Carnival Scenes at Mayfield at the weekend when the Mayfield Combined Charities Festival was officially opened. It will continue for a week.
Huge Crowd At Opening Of Charity Carnival

The organisers of Mayfield Combined Charities Festival estimate that 16,000 people—1000 more than last year's record—witnessed the procession and official opening of the week's celebrations.

The thunderstorms and heavy rains earlier in the week had scared some crowds away, but the weather on the day the festival opened wasn't too bad.

A happy carnival spirit prevailed in Webb Park, surrounded by tables of refreshments, children's rides, and stalls selling goods. Crowds, tightly packed, added to the earlier excitement that had built up as the morning. The corner of Mainland Rd and Heatherside was further enhanced by Lord Mayor and Father's day.

The Mayfield Combined Charities Festival has become an outstanding and popular feature in Mayfield and Waratah community life.

Sponsored by the Mayfield Business Men's Club and organised by a committee of representatives from charitable and public welfare organisations, it is a community event for those organisations to raise funds as well as to celebrate the week.

Newcastle Loin Club, Nobby Club for the Waratah Deer and Dunbar Hospital, the Children's Association, and the Waratah Hospital, the RSL, and the Children's Benevolent Society were some of the beneficiaries.

People of different interests are brought together and a better understanding of the values of good fellowship and community life is fostered.

Senator Spooner’s Tribute To Mayfield

‘Best Form Of Social Service Is Voluntary Effort’

Australia was a young country which was going to grow and expand. The Minister for National Development (Senator Spooner) said when opening the Mayfield Combined Charities Festival.

Mr. J. W. Dewar, who was president of the Newcastle Men’s Club in 1955, recently launched an appeal to help the local club and its social activities.

Mr. A. Jones, organising secretary of the Mayfield Festival Committee, who is an active in the club and do the same thing in the next five years. And we have proved through our efforts that the festival can be very successful.

Confidence

Business Men Foster Community Effort

The Business Men’s Club deserves special mention for its foresight in creating the Mayfield Festival and for the manner in which it has supported the event each year.

The club was formed on 1 December 1951, with 25 members. Mr. A. Aberfield, who was the club’s first president, and Mr. and Mrs. G. Harrold, who was the club’s first secretary-treasurer, are the pioneers in the club.

The club has many members and is very successful. The club is a busy one and is well attended. The club has been very successful in the past and has been very popular.

Six Houses On One Side, Seven On The Other!

Distinction of being Mayfield's oldest resident belongs to 83-year-old David Smith, of Elizabeth-st., who worked as a

MAYFIELD COMBINED CHARITIES FESTIVAL SUPPLEMENT
Celebrations Began In Jubilee Year

By A. E. Jones, the Festival Organiser

The Mayfield Festival had its beginning in 1950, with the brilliantly successful Jubilee Celebrations.

White Way was officially opened by the Minister for Health, Mr. A. E. Jones, on Wednesday last week. The celebrations have been organized by the New Northumberland and Westmorland Festival Committee, and it is expected that there will be more than 30,000 visitors to the Festival during the week.

The jubilee celebrations were opened with a parade consisting of the New Northumberland and Westmorland Festival Committee, Mr. J. Atkinson chairman, and the late Mr. J. Atkinson as president. The parade was led by a horse, which was followed by a band and a group of young people.

Good Response

Over the years the response of the public has been more than satisfactory. Many citizens of the city of Newcastle upon Tyne have contributed to the success of the Festival.

Mr. J. Atkinson, who was responsible for the organization of the Festival, has been a keen supporter of the event. He has always been eager to see the Festival succeed, and has worked tirelessly to ensure its success.

Knowing Horse Leads Marches

Mounted on her aged white horse, Pat, Miss Betty Evans, daughter of the late Rev. Mr. Evans, has led the Mayfield Festival procession every since the 1950 jubilee celebrations.

'White Way' Lighting

The lighting of the 'White Way' was carried out by the Electricity Board. The lighting of the 'White Way' was carried out by the Electricity Board. The 'White Way' was lit with electric lamps, which were placed along the route of the procession. The lighting of the 'White Way' was carried out with great care, and the result was a beautiful and impressive display.

QUEEN COMPETITION IS HIGHLIGHT OF BIG MAYFIELD CARNIVAL

The Queen competition, always a colorful and spectacular highlight of the Mayfield Festival, is more interesting than ever this year with a record number of 16 candidates.

The Queen competition will again feature the same format as previous years, with the selection of the Queen taking place on Saturday, November 11th, in the presence of the Mayfield organizations who are represented in this year's contest. The competition will be held at the Mayfield Hotel, with the Queen being crowned in front of a large audience.

The contestants will be judged on their beauty, poise, and charm, with the winner being chosen by a panel of judges who will be announced shortly. The Queen will then become the official hostess for the Mayfield Festival, attending various events and functions throughout the year.

Many Mayfield organizations are represented this year in the Queen competition, which has attracted 16 candidates. As usual, rivalry is keen, but the girls have not lost an opportunity to help each other. The competition will continue for the rest of this week concluding with a ceremony at Webb Park at 3 o'clock next Saturday afternoon.

The Queen competition will provide excitement and entertainment for all those attending the Mayfield Festival, and it is sure to be a highlight of this year's event.

At Soul, Pattinson & Co., we are proud to support the Mayfield Festival by offering a variety of services to the community. We provide prescriptions, private, repatriation, pensions, and free medicine, and we maintain large stocks of patent medicines, cosmetics, and baby foods. Additionally, we offer friendly, personal service.

"I Remember Mayfield..."

Pioneer Who Did "First Job For The B.H.P."

By a Staff Reporter

As an apprentice coach builder, George Dodd worked 12 months for the princely sum of 6/- a week and his wife, Miss Lilian Shea, earned 4/-10/- a week as a nurse at Newcastle Hospital.

"That's of course, humbly, but that was for the early Mayfield pioneer," Mr. Dodd said. "I was 18 and my wife was a nurse also working in the early days."

"We were better off then than we are today," Mr. Dodd told me, "in the same way as spending so much and not seeing very little food and clothes. We had a bed of bread for 1/-, a pint of milk for 1/10, and a half.

"It was a difficult time, but we were able to start a family after the first 12 months and buy for the girls."  

Horse Buses

Mr. Dodd said he dearly remembers the harness picture show he had seen at Hamilton before 20 years ago. It was a horse-drawn van with a horse on the rear, and people sitting on the front. This was the first serious attempt to make the engines made the picture show popular. "When the horse first arrived, there were no cars or buses," he said.

Mr. Dodd was six years old when his father settled on part of the area now known as Arthur's Head. He has been there for 15 years now, where there are no cars or buses, except on special occasions.

"I remember when you could sit on top of the hill and watch the horse and people walking around, and it was a good time," he said.

As a young man, he had some experience of driving in double-decker coaches before the 1914-1918 War, and as a result, he was able to get skilled advice from the coach builders.

A short distance from the city, he continued, there were then only two other horses in that part of Mayfield. One was owned by the late Mr. H. J. Moore in Hamilton, and the other was on Waunabah Rd.

In the year 1918, he said, "Mayfield Boom" justifiably he claimed to have the first 100 on the other side of the river, where there were no cars or buses, except on special occasions.

Three Generations
Of Amos Hotelkeepers

Three generations of the Amos family, all named David, have
been associated with hotels in Hamilton, Tich's Hill and
Mayfield for nearly half a century.

Mayfield has but three hotels — the Amos, Mayfield and
Breakfast — and of these the Amos is the oldest. The
Amos Hotel was opened by John Amos in 1850, and
consequently occupies an early position.

Their lans are a popular feature of thousands of
visitors to Mayfield. The hotel is always open,
and is open on Sunday. It is said to have been
opened on Sunday afternoon.

Huge Sales

The fact is, surely, responsible for the Hotel
Amos owning the largest hotel.

Two Women Put
Suburb 'On Map'

To two women belongs the claim to
have put Mayfield "on the map" in
a business sense because, between
them, they built most of the stores in
the suburb's modern shopping centre.

There are the late Mrs. N. L. Hurxman and Mrs. L. A.
Hunter of Haywards St., who are the owners of the
Little Britain, and the only women to have been among
the early builders of the shopping centre.

Two of her daughters, Mrs. M. Morris and Mrs. L. A.
Hunter, both live in Mayfield and are well-known for
their work in the suburb.

Mrs. M. Morris, a daughter of the late Mrs. Morris,
who has been here for 75 years, is the owner of the old
hotel, the Amos Hotel, which she and her husband
opened in 1905.

Mrs. L. A. Hunter, a daughter of the late Mr. Hunter,
who has been here for 70 years, is the owner of the
new hotel, the Royal Oak Hotel, which she and her
husband opened in 1905.

The two women have been among the early builders of
the suburb's modern shopping centre and have done
well academically.

Many of the shops on the northern side of Mait-
land St., are built by Mr. Hunter, who has lived in
Mayfield all his life. The first hotel in Mayfield was
built by Mrs. Hurxman, who is the mother of Mrs. Hurx-
mans, and Mr. Hurxman, and Mr. A. Hurxman, and

For more than a quarter of a century Australia's development and economy have depended vitally upon the output of the great Mayfield steel mills, source of the country's heavy industry. For many years, the huge B.H.P. Steel Works, largest of the sprawling plants which stretch along the southern banks of the Hunter River, supplied the only steel made in Australia, whether suited to any quantity or in any form.

In recent years the output has been supplemented and indeed extended by productions from the new 355,000 ton Pacific Mills at Port Kembla and from New South Wales Steel Company Ltd., in Mandurah, W.A., also operations from Broken Hill.

In the early days of the industry, the large iron and steel industry in Sydney and Newcastle dominated the market. In the late 1890s the companies expanded and acquired other companies. Today, the company's steel output is much more than the combined output of the two major steel producers in the Hunter Valley. The company has been operating for more than 20 years and the first 100,000 tons of steel were shipped in December 1924.
